Topic	No. of Questions
Topic 1, Exam Set A	49
Topic 2, Exam Set B	50
Topic 3, Exam Set C	49
Topic 4, Exam Set D	50
Topic 5, Exam Set E	46
Total	244

QUESTION NO: 1

If a function is not a built in function, then it is a _____ function.

- A. canned
- B. user-defined
- C. object based
- D. Java

ANSWER: B**QUESTION NO: 2**

What is a constructor function in JavaScript?

- A. A special function that enables the recursion of functions throughout the Web site.
- B. A special function that allows the construction of objects.
- C. Any function that allows databases to be parsed without being loaded entirely into memory.
- D. Any function that allows the definition of any object as a global rather than a specific instance.

ANSWER: B**QUESTION NO: 3**

Ann inadvertently deleted her cookies.txt file.

How will this affect her browsing experience?

- A. She must re-enter her personal information wherever she has user accounts that rely on cookies.
- B. She will enjoy a quicker browsing experience because the servers she visits need not confirm her user identity.
- C. It depends on the type of cookies.txt file that was generated within her browser user profile; if the cache files and cookies.txt were deleted, all links will appear unvisited.
- D. Her Web browser will no longer function because the cookies.txt file is necessary for browser operation.

ANSWER: A C

QUESTION NO: 4

Regarding cookies: If the expires attribute is not used, when will the cookie expire?

- A. in 10 days
- B. in 3 days
- C. in 30 days
- D. at the end of the user's session with the Web application

ANSWER: D

QUESTION NO: 5

The location object is subordinate to the _____ object in the JavaScript hierarchy.

- A. form field
- B. window

ANSWER: B

QUESTION NO: 6

To instantiate and then populate the properties of each new instance with actual data, you must _____.

- A. declare functions
- B. declare variables
- C. create values
- D. call the function

ANSWER: B**QUESTION NO: 7**

In Microsoft Internet Explorer, what is the purpose of the DAT file?

- A.** The DAT file contains a history of the cookie's origin and expiration date.
- B.** The DAT file is used in caching, sometimes in tandem with cookies.txt.
- C.** The DAT file contains user preferences that, when used in conjunction with certain cookies and Web sites, streamline the ordering process by loading the user profile once.
- D.** The DAT file is a Digital Archived Text file that provides superior performance to the cookies.txt file.

ANSWER: B**QUESTION NO: 8**

1stName would be a valid variable name.

- A.** True
- B.** False

ANSWER: B**QUESTION NO: 9**

A _____ is an organized block of code that handles actions generated by user events.
