**A.** class box with two smaller rectangles on its left side

**B.** <> keyword

**C.** memo box

**D.** single sheet icon with a folded-over corner

**E.** syntactically well-formed file name
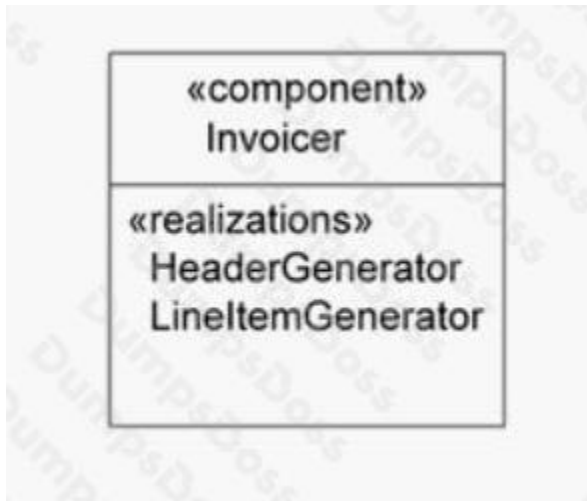

**ANSWER: B D**

## QUESTION NO: 2

What is correct about a profile? (Choose two)

**A.** is applied to a package

**B.** can dynamically change its reference metamodel

**C.** cannot be used without its reference model

**D.** is applied to a reference metamodel

**ANSWER: A C**

## QUESTION NO: 3

What most accurately describes the semantics modeled by the exhibit?

**A.** Invoicer realizes HeaderGenerator and LineItemGenerator.

**B.** HeaderGenerator and LineItemGenerator are Invoicer ports.

**C.** An Invoicer component is composed of a HeaderGenerator component and a LineItemGenerator component.

**D.** HeaderGenerator and LineItemGenerator realize Invoicer.

**ANSWER: D**

## QUESTION NO: 4

What statements are true about a composite structure? (Choose two)

**A.** The behavior of a structured classifier must be completely defined through the collaboration of owned or referenced instances.

**B.** A structured classifier is also an encapsulated classifier.

**C.** Structured classifiers cannot contain instances of structured classifiers.

**D.** Collaborations are structured classifiers.

**E.** Destroying an instance of a structured classifier normally destroys instances of its parts.

**ANSWER: D E**

## QUESTION NO: 5

What does an activity partition contain? (Choose two)

**A.** lifelines B. states

**B.** classes

**C.** edges

**D.** nodes

**E.** messages

ANSWER: C D

QUESTION NO: 6

What is permitted for the profile mechanism?

**A.** removes existing metamodels

**B.** extends existing metamodels

**C.** changes existing metamodels

**D.** creates new metamodels

ANSWER: B

QUESTION NO: 7

For what does an interaction operator define semantics?

**A.** a particular interaction fragment

**B.** a particular interaction

**C.** a particular message

**D.** a particular combined fragment

ANSWER: D

QUESTION NO: 8

Which must be true in order to use a delegation connector to connect two components?

**A.** One component must be part of the internal realization of the other component.

**B.** The components must have complex ports.

**C.** The components must be related to each other via a dependency.

**D.** One component must be a subtype of the other.

**ANSWER: A**

## QUESTION NO: 9

CORRECT TEXT

Which is a correct representation of multiple extension and generalization/specialization?

(Choose two)

**A.** Option A

**B.** Option B

**C.** Option C

**D.** Option D

ANSWER: C D

## QUESTION NO: 10

What interface restrictions does a port have?

**A.** exactly one required interface and exactly one provided interface

**B.** multiple provided interfaces and multiple required interfaces

**C.** multiple required interfaces or multiple provided interfaces

**D.** exactly one provided interface or exactly one required interface

**E.** equal numbers of provided interfaces and required interfaces

ANSWER: B
