http://docs.oraclE. com/cd/E24382_01/weB. 1112/e16181/gs_intro.htm

QUESTION NO: 8

After deploying WebCenter Portal for an enterprise, you can optionally register a connection to Portlet producers.

Which three mechanisms allow you to accomplish this?

A. Portlet producers can be registered with WebCenter Portal using the WLST (WebLogic Scripting Tool) commanD.

B. Portlet producers can be registered by using Fusion Middleware Control (Enterprise Manager).

C. Portlet producers can be registered via SQL.

D. Portlet producers can be registered using Portlet Producer Registration Task Flow from within WebCenter Portal.

ANSWER: A B D

QUESTION NO: 9

What happens to a page if a portlet throws an exception during the render-response phase of the ADF Faces Page Request life cycle?

A. The page renders, displaying the portlet's configured unavailable error messagE.

B. The page renders with no content displayed for the corresponding portlet.

C. The page fails to render.

D. The page renders, with an error recorded in a log filE.

ANSWER: C

QUESTION NO: 10

What are the three ways in which you can export an asset from Webcenter Portal?

A. Export an asset to an archive using the "Download" option from Portal Builder.

B. Export an asset to an archive using the WLST commanD.

C. Configure the DesignWebCenterSpacesJDeveloper application to connect to your portal and download an asset directly from the Portal. Then, you can export it from there into an archivE.

D. Export an asset by going to the source of an asset and copying it. Then create a new asset in JDeveloper with the contents of the same asset.

E. Export an asset by exporting the portal and then extracting the portal assets.

ANSWER: A C E
