QUESTION NO: 1

Which three of these service components are included in the optimize phase? (choose three.)

- A. change management
- B. security administration
- C. technology assessment
- D. operations assessment
- E. operations readiness assessment
- F. security assessment

ANSWER: C D F

QUESTION NO: 2

Which two service components are performed during the implement phase? (Choose two)

- A. site readiness specification
- B. staging
- C. phased implementation
- D. security readiness assessment
- E. configuration management

ANSWER: B C

QUESTION NO: 3

During which phase are the customer's business requirements identified and documented?

- A. plan
- B. operate
- C. prepare
- D. design

ANSWER: C

QUESTION NO: 4

Which two of these activities are part of the phased implementation service component in the implement phase? (choose two)

- A. develop a staff training program plan
- B. conduct a kickoff meeting
- C. prepare the site for the system implementation
- D. install, configure, integrate and test infrastructure

ANSWER: C D

QUESTION NO: 5

In which service component of the optimize phase would you assess the routing and switching system and recommend activities such as optimizing device configurations, capacity planning, or traffic analysis?

- A. change management
- B. technology assessment
- C. security assessment
- D. security administration
- E. operations assessment
- F. operations readiness assessment

ANSWER: B

QUESTION NO: 6

Which of these best describes the actions you would take during the business requirements development service component in the prepare phase?

- A. analyze the customer's business requirements for a new solution.
- B. analyze the customer's ongoing business case requirements
- C. determine the customer's technology requirements.

D. determine the appropriate cooling temperature for the customer's server room.

ANSWER: A

QUESTION NO: 7

Which two of these activities are part of the implementation plan development service component in the design phase? (Choose two)

- A. develop an implementation schedule
- B. discuss project roles and responsibilities
- C. confirm project and milestone dates
- D. create a detailed staff training matrix
- E. create a site-specific network implementation plan

ANSWER: A E

QUESTION NO: 8

Which two of these activities comprise the problem management service component in the operate phase? (choose two.)

- A. send a replacement module
- B. schedule a maintenance window
- C. manage the problem
- D. identify the problem
- E. confirm roles and responsibilities

ANSWER: C D

QUESTION NO: 9

Execute the systems acceptance test plan is an activity that is part of which service component in the implement phase?

- A. phased implementation
- B. acceptance testing
- C. staff training

D. full system migration

ANSWER: B

QUESTION NO: 10

Which of the following service components occur in the implement phase?

- A. security assessment, operations assessment, supplier management
- B. operations readiness assessment, systems requirements validation, planning project kickoff
- C. project kickoff, staging, acceptance testing, post-implementation support handoff meeting
- D. WLAN change management, security administration, technology assessment, operations plan

ANSWER: C
